Key Programming Software Update compatible with Suzuki* ADS2233 - Code D752008AD

🇬🇧 Advanced Diagnostics is pleased to announce the release of an update to the ADS2233 software to program proximity keys for a wide range of Suzuki* vehicles worldwide.

The ADS2233 software programs proximity keys with push button start for selected Suzuki* models, allowing keys to be added or programmed from a lost key situation.

🇮🇹 Advanced Diagnostics ha sviluppato un aggiornamento per il software ADS2233 dedicato alla programmazione di chiavi di prossimità per un'ampia gamma di veicoli Suzuki*.

Il software ADS2233 programma le chiavi di prossimità utilizzate su alcuni selezionati modelli Suzuki* dotati di pulsante Start, consentendo di programmare o aggiungere nuove chiavi anche in caso di perdita dell'originale.

🇩🇪 Advanced Diagnostics hat ein Update für die ADS2233 Software entwickelt, das die Keyless-Go-Schlüssel für eine breite Palette von Suzuki* Fahrzeugmodellen programmiert.

Die ADS2233-Software programmiert die Keyless-Go-Schlüssel einiger ausgewählter Suzuki-Modelle*, die mit einer Starttaste ausgestattet sind. Mit dieser Software können Sie neue Schlüssel hinzufügen oder programmieren auch im Falle, dass alle Schlüssel verlorengegangen sind.

🇫🇷 Advanced Diagnostics a développé la mise à jour du logiciel ADS2233 pour programmer les clés de proximité pour une large gamme de modèles de véhicules Suzuki*.

Le logiciel ADS2233 permet de programmer les clés de proximité utilisées sur certains modèles Suzuki* dotés de bouton Démarrer. Le logiciel permet de programmer ou d'ajouter de nouvelles clés même quand on a perdu l'original.

🇪🇸 Advanced Diagnostics ha desarrollado la actualización del software ADS2233 para la programación de llaves de proximidad para una amplia gama de modelos de vehículos Suzuki*.

El software ADS2233 programa las llaves de proximidad utilizadas en algunos modelos Suzuki* seleccionados, equipados con un botón de arranque. El software le permite programar o añadir nuevas llaves también en caso de pérdida total de llaves.

🇵🇹 A Advanced Diagnostics desenvolveu a atualização do software ADS2233 para a programação de chaves de proximidade para uma ampla gama de modelos de veículos Suzuki*.

O software ADS2233 permite programar as chaves de proximidade utilizadas em alguns modelos Suzuki* seleccionados equipados com um botão de arranque. O software permite que você programe ou adicione novas chaves, mesmo quando a chave original foi perdida.

Key Programming Software Update compatible with Fiat* ADS2295 - Code D754548AD

🇬🇧 Advanced Diagnostics is pleased to announce the release of an update to the ADS2295 software to program bladed and proximity keys for the Fiat* Fullback. It is the **FIRST** aftermarket solution worldwide to cover these models via OBD connection, without using a bypass cable.

The software supports all keys lost situations and bypasses the security pincode during the procedure. All keys and remotes will be erased before programming new ones.

🇮🇹 Advanced Diagnostics ha sviluppato il nuovo aggiornamento software ADS2295 per la programmazione di chiavi con canna metallica e chiavi di prossimità per la Fiat* Fullback. Si tratta della **PRIMA** soluzione aftermarket al mondo a coprire questi modelli tramite OBD, senza richiedere l'utilizzo di ulteriori cavi.

Il software supporta le situazioni di perdita dell'originale e bypassa la richiesta di codice pin durante la procedura di programmazione. Tutte le chiavi e i radiocomandi registrati in centralina saranno cancellati prima della programmazione.

🇩🇪 Advanced Diagnostics hat das ADS2295-Software-Update entwickelt, um Metall- und Keyless-Go-Schlüssel für den Fiat* Fullback zu programmieren. Es ist die **ERSTE** Aftermarket-Lösung weltweit, die diese Modelle über eine OBD-Verbindung ohne Verwendung eines Bypass-Kabels abdeckt.

Die Software unterstützt alle Schlüsselverlustsituationen und umgeht die Abfrage des Pin-Codes während des Programmierverfahrens. Alle Schlüssel und Fernbedienungen werden vor der Programmierung gelöscht.

🇪🇸 Advanced Diagnostics ha desarrollado la nueva actualización del software ADS2295 para programar llaves con y sin proximidad para el Fiat* Fullback. Esta es la **PRIMERA** solución aftermarket en el mundo que cubre estos modelos a través de OBD, sin requerir el uso de cables adicionales.

El software gestiona las situaciones de ausencia del original y realiza el bypass del acceso de seguridad durante el procedimiento de programación. Todas las llaves y mandos registrados en la central se borrarán antes de ser programadas.

🇫🇷 Advanced Diagnostics a développé la nouvelle mise à jour du logiciel ADS2295 pour la programmation des clés en métal et de proximité pour la Fiat* Fullback. Il s'agit de la **PREMIÈRE** solution de rechange au monde à couvrir ces modèles via OBD, sans nécessiter l'utilisation de câbles supplémentaires.

Le logiciel gère les situations où l'original est perdu et contourne la demande de code PIN pendant la procédure de programmation. Toutes les clés et les télécommandes enregistrées dans l'unité de contrôle seront supprimées avant la programmation.

🇵🇹 A Advanced Diagnostics desenvolveu a nova atualização do software ADS2295 para a programação de chaves de metal e chaves de proximidade para o Fiat* Fullback. Esta é a **PRIMEIRA** solução aftermarket do mundo a cobrir esses modelos via OBD, sem a necessidade de cabos adicionais.

O software suporta as situações de ausência do original e evita o pedido de código pin durante o procedimento de programação. Todas as chaves e os rádio controlos são apagados antes da programação.

IMPORTANT

(*) Silca n'est titulaire d'aucun droit de propriété intellectuelle, ni de licences afférentes aux marques d'automobiles, transpondeurs ou appellations commerciales des fabricants cités dans ce matériel informatif. Les dites marques et appellations commerciales ne sont mentionnées que dans un but d'illustration de leur utilisation et d'information quant à l'usage correct du produit. / Les illustrations et les caractéristiques techniques des produits présentés dans cette documentation sont données à titre indicatif. Bien que les caractéristiques essentielles des produits soient invariables, Silca se réserve le droit d'apporter toutes les modifications qu'elle retiendra nécessaires et opportunes afin d'améliorer la qualité de ses produits. Tous les dessins et photos sont propriété Silca et toute reproduction, même partielle, sans l'autorisation écrite préalable de Silca S.p.A. est interdite conformément aux prescriptions légales. Tout litige est du ressort exclusif des Tribunaux de la circonscription où se trouve le Siège de la Société Silca S.p.A.

IMPORTANTE

(*) A Silca não é titular de nenhum direito de propriedade intelectual nem de licenças relativas às marcas de automóveis, transponders ou às denominações comerciais dos respectivos fabricantes referidos neste material informativo. Essas marcas e denominações comerciais só são indicadas com o fim de ilustrar a finalidade do produto e permitir a sua correcta utilização. / As ilustrações e as características técnicas dos produtos apresentados neste catálogo são facultados a título indicativo. Mesmo que as características essenciais dos produtos sejam invariáveis, à Silca reserva-se o direito de modificar ser necessário e oportuno os produtos, afim de melhorar a sua qualidade. Todos os desenhos e fotos são propriedade da Silca, e é proibida a sua reprodução mesmo parcial sem a autorização escrita da Silca S.p.A. conforme as prescrições legais. Em caso de litígio fica desde já designado, excluindo qualquer outro, o Tribunal da comarca onde está registrada a sede da Silca S.p.A.
